

# Website Change & Fix Requirement Document

Prepared for: **Development Team**

Prepared by: **Shivyanshi Jatav**

Purpose: To list all required updates, fixes, and backend clarifications for the website.

## 1. About Us Page

### Issues / Requirements

1. Please confirm **from where the Contact Us section content can be updated.**
2. Add **Country selection dropdown** in the **Contact Us form.**
3. The Contact Us form placed on the About Us page:
  - Leads are **not visible in the backend.**
  - Please clarify **where these leads are being received** and ensure proper backend visibility.

## 2. Become Our Business Partner Page

### Issues / Requirements

1. Please confirm **from where banner images can be updated.**
2. Currently **not able to update products** on this page.
3. Clarify **from where the Contact Us section content is updated.**
4. Add **Country selection option** in the **Contact Us form.**
5. If a form is submitted on this page:
  - Please confirm **where the leads are stored or sent.**

## 3. Home Page

### Issues / Requirements

1. Add **Country selection dropdown** in the **Contact Us form** on Home page.
2. Fix the **Our Journey timeline order** (sequence is incorrect).

## 4. Event Page

### Issues / Requirements

1. Currently, **only one image can be added per event.**
  - Please confirm if multiple images can be enabled.
2. **Not able to update banner image.**

## 5. Plant Tour Page

### Issues / Requirements

1. **Banner image is not updating.**
2. Image section issue (Critical):
  - Battery section and Inverter section are using the **same image source.**
  - When image is updated in Battery section, it also updates in Inverter section.
  - Please **separate image controls** so both sections can be updated independently.
3. Update **Contact Us section** on this page and add **Country option** in the form.

## 6. Research & Development Page

### Issues / Requirements

1. Content text color should be **black** (currently incorrect).

## 7. Product Page

### Issues / Requirements

1. Currently **no changes can be made** on the product page.
  - Please enable product page editing or confirm the process.

## 8. Business Vertical Page

### Issues / Requirements

1. In **Why Choose Us** section:
  - All icons appear the **same**.
  - Please update or differentiate icons.
2. Please confirm **from where the Contact Us section is updated**.

## 9. Global Reach Page

### Issues / Requirements

1. Backend update required./ at the place of country there is state so please update it
2. Clarify/update **Contact Us section**.

## 10. Career Page

### Issues / Requirements

1. Apply Form:
  - **Do NOT add Select Qualification dropdown.**
  - Keep **manual qualification fill (text input field only)**.
2. After form submission:
  - Please confirm **who receives the applicant details** and where they are stored.

## 11. Brand Pages (Unique / Elson / Others)

### Issues / Requirements

1. Banner management:
  - Please confirm **from where banner info images can be added/updated**.
2. Please confirm update locations for the following sections: (from where I can update these)
  - Product section
  - Ethos
  - Why Choose Us
  - Certificates
  - Contact Us section
  - FAQ section

## 12. Country Pages

### Issues / Requirements

1. Please confirm that **all country pages** are editable and managed properly.

Please confirm **from where the following sections are updated**:

- Product section
- Ethos section
- Certificates
- FAQ section
- Contact Us section

## 13. Menu Section (Backend Navigation)

### Clarification / Requirement

1. The **Menu section on Country Pages and Brand Pages is different from the Home Page menu.**
2. Contact details shown in the **menu bar**:
  - On the **Home Page**, contact details should remain as per Home Page settings.
  - On **Brand Pages and Country Pages**, contact details in the menu bar should be **separate and independently manageable**.
3. Please ensure:
  - Menu contact details for Home Page, Brand Pages, and Country Pages are **not linked**.
  - Each has its **own backend control** for updates.

## Summary

This document consolidates all observed issues, missing functionalities, and clarification points required from the development team. Kindly review each section and share:

- Update access paths
- Backend locations
- Feasibility confirmations
- Estimated timelines for fixes
